Passionate about creating engaging and interactive web experiences, with a focus on improving user experience through innovative design and development. Skilled in enhancing web functionality and aesthetics using modern technologies. Strong understanding of user needs and a collaborative approach with design teams to ensure smooth digital interactions. Eager to contribute to building high-quality products that make an impact.

## Skills

Figma	React JS	Three JS
HTML	Tailwind CSS	Lenis JS
CSS	GASP	GitHub
Javascript	Locomotive JS	Shery JS

## Experience

NGE Industries  
Web Developer

Secunderabad, India  
Feb 2024 - Nov 2024

I redesigned and developed a couple of websites, including Juiceman.in and the Agromate website. Before building the actual websites, I created prototypes using Figma to refine the design and user experience. My work involved improving the site's structure, enhancing visual appeal, and ensuring responsiveness for a seamless user experience.

## Projects

Collabrate+  
In Progress

Figma Link
