Job Description

SDET Intern – Join Our Team!

Location: Bangalore
Duration: 6 months
Start Date: Immediate
Stipend: ₹60,000 - ₹75,000 (Depending on interview performance)

About Us

Atomicwork is on a mission to transform the digital workplace experience by uniting people, processes, and platforms through AI automation. Our team is building a modern service management platform that enables growing businesses to reduce operational complexity and drive business success.

We're looking for an **SDET Intern** to join our team and help us build our modern service management platform. This position is based out of our **Bangalore office**. As an **SDET Intern**, you'll play a key role in ensuring the quality and reliability of our products while gaining hands-on experience in real-world testing environments.

What You'll Do

- Collaborate with developers and product managers to understand features and user stories.
- Design, execute, and maintain manual and automated test cases.
- Identify, document, and track bugs through to resolution.
- Assist in performing functional, regression, and performance testing.
- Help improve testing processes and contribute to a culture of quality.

What We're Looking For

- Pursuing or recently completed a degree in Computer Science, Engineering, or a related field.
- Basic knowledge of QA methodologies and testing techniques.

If you are passionate about software quality and looking for a great learning opportunity, **apply now!**
